

Apostles of the Mahajrya

Acharyas of high accomplishment can transmit the bond to the five masters of Mahajrya without rules or structure. This creates an Apostle of the five masters, or an Apostle of the Mahajrya/Great Field of God.

As a human, this person becomes an Apostle of the transmitting Acharya. The initiation creates a link between initiate and Acharya. The relationship transcends lifetimes, rules and systems—it is pure love. It is God's will flowing in soul families. So it is very different from a priest initiation.

This transmission is not a thing that can be requested. It is special and rare, and only pratyeka Buddhas and Mahasiddhas may perform the transmission.
