

Storm Elemental process

Requirements:

- Charge the 5 minor elements (9 x 12 method for each)
- Charge the Kuji-In mantras up to Kai (optional but recommended)
- ESP system, Transmigration Level 2

Each mantra of the Storm Elemental process is done in the 9 x 12 or 3 x 36 structure. Either 9 malas per day for 12 days or 3 malas per day for 36 days. Each mantra charge must be finished before you start another step.

You must recite the mantras knowing the Supreme Consciousness is doing Supreme japa while you are doing japa in your human form.

Step 1: Elemental peace, so you can cause the elements to return to peace.

Om dheem kleem ram
Prithivi Shanti
Agni Shanti
Apsa Shanti
Vayu Shanti

Mudra: prayer mudra, both hands joined flat.

Attitude: all elements, inner and outer, are at peace.

Step 2: Elemental protection, so you are protected by the elements.

Om dheem kleem shreem
Prithivi raksha
Agni raksha
Apsa raksha
Vayu raksha mam

Mudra: harmony mudra, all fingers joined in a sphere.

Attitude: all elements, inner and outer, collaborate to protect you.

Step 3: Storm mantra, to invoke the life and power of a storm.

Om aeem kleem shreem
Vajra-ativAta Jivachakra

English, bija mantras followed by: Thunder Storm Life Wheel

Mudra: Emitting mudra. Both hands opened, at angle, palms partially facing forward and up, fingers lightly stretched.

Attitude: Living power, all elements active

Step 4: Making contact

Once all charges are done, go out in any level of storm, recite the Elemental peace mantra 1 minute, then the elemental protection mantra 1 minute, then consciously transmigrate into the storm with eyes opened, looking at it, and chant the Storm mantra for as long as you can endure, or feel good about it. If anything happens, close the session with elemental protection, then elemental peace mantra, for as long as it takes to feel the peace completely, while retaining the life energy and power of the storm.

The mantras of the Storm Elemental Process were created by Maha Vajra.
